- Strong interpersonal, problem-solving, and communication skills
- Bilingual in English and Spanish
- Project leadership, customer service, and team collaboration

Fluent English/Spanish communicator with proven Salesforce CRM, MS Office, and reporting tool expertise; experienced in bilingual service delivery and cross-functional collaboration.

WORK EXPERIENCE

1

Essilor Luxottica

Data Steward Analyst & Data Governance Analyst

February 2022 – Jan 2024 (2 years)

Company Description

EssilorLuxottica is the global leader in eyewear and vision care, known for iconic brands like Ray-Ban and Oakley. With over 18,000 retail stores and operations in 150+ countries, they set industry standards for product innovation, quality, and global vision solutions.

Role Description

- Conduct complex data analyses, ensuring accuracy and accessibility of critical organizational data
- Identify and resolve data errors/quality issues; generate detailed, actionable reports
- Leverage advanced skills in Excel, Salesforce, SQL, and Qlik; create basic macros to optimize workflows

Value Adds:

- Supported enterprise-scale data governance in a multinational managing large volumes of diverse product and client data.
- Improved process efficiency and data quality, contributing to global reporting standards in a business critical to vision innovation and accessibility.

2

MADATA

Service Center Analyst

September 2021 – February 2022 (6 months)

Company Description

MADATA delivers managed IT, SAP ERP solutions, cybersecurity, and digital infrastructure in the US and Mexico. They are an SAP Platinum Partner, recognized for advancing clients' efficiency and operational resilience.

Role Description

- Delivered end-user technical support for SAP SuccessFactors, specializing in Human Capital Management modules including Employee Central (EC), Recruiting Management (RCM), and Onboarding (ONB)
- Supported SAP S/4HANA modules and provided complex analysis and troubleshooting in both cloud and on-premise environments
- Managed and generated reports involving massive data sets, ensuring data accuracy and supporting HR and finance operations
- Oversaw technical processes for Active Directory, Office365, and Cisco IP Phones, increasing system reliability and user productivity

- Managed SAP Security and supported SAP FI modules, ensuring robust access controls and compliance for client operations

Value Adds:

- Enabled HR and finance teams to operate effectively by providing reliable, accurate support across SuccessFactors HCM cloud modules and on-premise SAP environments, reducing disruptions and improving system adoption.
- Maintained data integrity and confidentiality across HR and finance operations through rigorous SAP Security management and access controls, ensuring compliance for client organizations.
- Delivered bilingual (English/Spanish) technical support across both cloud and on-premise environments, serving a diverse client base and demonstrating flexibility across multiple concurrent workstreams.
- Oversaw technical processes for Active Directory, Office365, and Cisco IP Phones, increasing system reliability and user productivity
- Managed SAP Security and supported SAP FI modules, ensuring robust access controls and compliance for client operations

3

DATAZONE

Research Team | Content Analyst Senior

October 2020 – September 2021 (11 months)

Company Description

DATAZONE specializes in data management and research support, driving discovery and governance for business and research entities managing large-scale data. Their focus is on secure, high-integrity access to information across platforms.

Role Description

- Extracted, cleaned, and analyzed research data; assessed and maintained data quality
- Utilized data tools such as Excel, Macros, SQL, Visual Studio, and C# for data processing and reporting

Value Adds:

- Enhanced stakeholders' access to reliable and actionable research by maintaining the integrity and usability of large, complex datasets.
- Increased research and business agility by improving data processing and quality controls.

4

DATAZONE

ALLDATA Department | Technical Analyst II

April 2018 – Oct 2020 (2 years, 7 months)

Company Description

ALLDATA, a subsidiary of AutoZone, delivers digital OEM automotive repair information and software, relied upon by repair shops, dealerships, and auto professionals worldwide.

Role Description

- Provided product support for web and on-premise apps; ensured effective implementation and user onboarding
- Delivered technical guidance on software installations, troubleshooting, and usage

Value Adds:

- Enabled automotive professionals globally to efficiently access critical repair and diagnostic software—supporting industry safety, compliance, and cost efficiency.
- Strengthened client confidence in technical solutions, reducing downtime and support backlog.

5

IQOR Global Services

Intern, Web Application Developer (QA Dept.)

September 2017 – January 2018 (6 months)

Company Description

iQor is a global leader in business process outsourcing, customer experience, and digital process transformation, serving Fortune 1000 clients in 10+ countries.

Role Description

- Developed web applications using ASP.NET, C#, JavaScript, CSS, and SQL Server
- Generated and reviewed technical documentation and reports

Value Adds:

- Improved product quality and automation in QA processes, enhancing software integrity for enterprise clients.
- Helped streamline internal reporting, supporting iQor's position as a forward-thinking BPO provider.
